this book comprises a selection of papers from ifsa 2007 on new methods and theories that contribute to the foundations of fuzzy logic and soft computing these papers were selected from over 400 submissions and constitute an important contribution to the theory and applications of fuzzy logic and soft computing methodologies soft computing consists of several computing paradigms including fuzzy logic neural networks genetic algorithms and other techniques which can be used to produce powerful intelligent systems for solving real world problems the papers of ifsa 2007 also make a contribution to this goal this book is intended to be a major reference for scientists and engineers interested in applying new computational and mathematical tools to achieve intelligent solutions to complex problems we consider that this book can also be used to get novel ideas for new lines of research or to continue the lines of research proposed by the authors of the papers contained in the book the book is divided into 14 main parts each part contains a set of papers on a common subject so that the reader can find similar papers grouped together some of these parts comprise the papers of organized sessions of ifsa 2007 and we thank the session organizers for their incredible job in forming these sessions with invited and regular paper submissions

this is the first comprehensive grammar of shaowu a min language spoken in

shaowu city and its environs in northwestern fujian province china the book offers first hand linguistic data collected over four years in the field now placed at the disposal of researchers and students working in language documentation comparative linguistics and sinitic typology it can serve as a reference grammar for those interested in learning the shaowu language thereby helping to preserve it in addition the book provides insights into shaowu s classification which has been widely debated thus elucidating its genetic affiliation the book first presents shaowu s geography demography and history it then profiles the language s phonology and lexicon before providing a detailed description of its syntax notably on its nominal predicate clausal and complex sentence structures which are the focus of the book the typological profile of shaowu is also treated with the conclusion that the language has gan hakka mandarin and even some wu overlays on its min base the shaowu language serves an excellent example to illustrate the degree of hybridity a language can attain due to intensive language contact over time

from the magisterial to the mundane achievements play a role in the best kind of human life and many people think that they are of such importance that they are worth pursuing at the expense of serious sacrifices yet for all that no philosophers have devoted more than a few short passages to discerning what makes achievements valuable or even what makes something an achievement to begin with gwen bradford presents the first systematic account of what achievements are and what it is about them that makes them worth doing it turns out that more things count as achievements than we might have thought and that what makes them valuable isn t something we usually think of as good it turns out that difficulty perhaps surprisingly plays a central part in characterizing achievements and their value achievements are worth the effort but just what does it mean for something to be difficult and why is it valuable a thorough analysis of the nature of difficulty is given and ultimately the best account of the value of achievements taps into perfectionist axiology but not just any perfectionist theory of value will do and in this book we see a new perfectionist theory developed that succeeds in capturing the value of achievement better than its predecessors

in the past two decades the study of prepositions has grown steadily the papers collected in this volume bring together the multifaceted perspectives on prepositions that have been developed in contemporary linguistics some papers mainly discuss syntactic and morphological aspects of prepositions other papers predominantly focus on cognitive aspects all the papers are however concerned with the semantics of prepositions this volume evolved from a workshop on prepositions held at hamburg university on june 26 and 27 1998
