the broken rung is more pervasive than the glass ceiling in holding women back from career success three mckinsey senior partners offer strategies for overcoming it and fulfilling your potential women around the world do extremely well when it comes to their education they graduate at higher rates than men and have higher average gpas but then a strange thing happens upon entering the

workforce they immediately lose their advantage when the first promotions come around the slide continues for every 100 men promoted to manager only 81 women overall and 77 women of color get promoted this is what mckinsey senior partners kweilin ellingrud lareina yee and maría del mar martínez call the broken rung and its effects compound throughout women s careers causing them to fall behind at the start and keeping them from catching up in this groundbreaking book the authors reveal the problem s underlying cause while about half of a person s lifetime earnings come from education and half from work experience men get more value from their experience than women do it is also here in one s work experience that the solution lies women need to build their experience capital to level the playing field and maximize their earning potential the book combines over a decade of research personal conversations with more than fifty remarkable leaders and the authors own rich experiences as leaders at mckinsey they weave data on the potential pitfalls with inspiring and instructive stories of women who have climbed over the broken rung using strategies that increased their experience capital leaders and companies must do more to address gender inequalities in the workplace but you don t have to wait the broken rung is your guide right now for moving up the career ladder and reaching your full potential at work

the widespread belief that tech savvy educated millennials are well positioned to handle the challenges of the fourth industrial revolution is unfounded it does not fully grasp the reality of a flux society where relevant technological skills and knowledge are continuously changing no one is permanently tech savvy millennials like other generations face the challenge of needing to continually reskill this has compounded their struggle to begin their careers at a point when there is no longer any guarantee of lifetime employment or retirement at a set age shaping the futures of work is a timely sociological exploration of the impact of technological innovations on employment nilanjan raghunath proposes that stakeholders such as states enterprises and citizens hold equally important roles in ensuring that people can adapt innovate and thrive within conditions of flux a promising model focuses on collaboration and proactive governance while good governance includes citizen engagement proactive governance goes one step further creating inclusive policies

roadmaps and infrastructure for social and economic progress this book reveals that lifelong learning and adaptability are imperative even for well educated professionals using singapore and singaporean millennials as a case study raghunath examines proactive governance and delivers research and analysis to elucidate career trajectories pointing to a work ethic that aims to engage with technological futures looking at local and global sociological literature to confirm the need for proactive governance shaping the futures of work suggests that singaporean millennials and professionals around the world need to better prepare themselves for flux risk failure and reinvention for career mobility

this book provides an in depth exploration of upskilling and reskilling strategies essential in today s rapidly evolving and complex global landscape the intensifying war for talent driven by macro trends such as digitalization ai climate change hybrid working and demographic shifts has made addressing the skills shortage a top priority for business leaders these global challenges not only require organizations to proactively identify and integrate future skills through targeted training programs but also demand a shift toward socially just and ecologically sustainable practices grounded in cutting edge research and proven practices this book bridges the gap between theory and practice it is an invaluable resource for hr professionals business leaders and educators dedicated to building a future ready workforce

the power of perception leadership emotional intelligence and the gender divide serves as a practical guide to educate women men and organizations on the barriers that keep women from fully contributing in the workplace these include differences in leadership style and emotional intelligence gender bias and stereotypes breadwinner and caregiver responsibilities and differences in gender culture which show up every day at work and home the power of perception also explores significant changes in global demographic trends and how our youngest generations are impacting the workplace the power of perception clearly illustrates the reasons that we don t see more women leading our global businesses it has nothing to do with women s skills and competencies and everything to do with perceptions of women as leaders as workers as mothers and as wives these

perceptions have a significant impact on promotion for many women perception is reality and it s powerful the power of perception provides personal stories of women s journeys real world examples and is based on the author s own research as well as that of many others every chapter includes practical easy to apply strategies summary points and reflection questions to empower women men and organizations to fully leverage talent and diversity
